TECHNICAL SKILLS

- Programming Languages:** Python, JavaScript, TypeScript
- Frontend Development:** Next, React, Bootstrap
- Backend Development:** Node, Express, Flask, FastAPI
- Databases:** MongoDB, MySQL
- Tools & Platforms:** Git, GitHub, Postman, WordPress
- Design & UI/UX:** Figma, Canva, Sketch, Blender, Responsive Design
- Core Concepts:** Data Structures & Algorithms (DSA), REST APIs, GenAI

SOFT SKILLS

Communication, Empathy, Collaboration/Teamwork

EDUCATION

2023 – 2027
B.Tech, Sagar Institute of Research and Technology, Bhopal
CGPA: 7.0/10

CERTIFICATIONS

Dec 2025
Artificial Intelligence — IITBombay, Mumbai

May 2025 – Jun 2025
Python with DSA — Sagar Institute of Research and Technology, Bhopal

Sep 2024 – Jul 2025
MERN Full Stack Developer — Sheryians Coding School, Bhopal

Mar 2024 – Jun 2024
C Language — Sheryians Coding School, Bhopal

PROFESSIONAL SUMMARY

Full Stack Developer and Computer Science Engineering student specialized in the **MERN stack**, **Python**, and **TypeScript**. Expert at **engineering** secure **REST APIs** and responsive web applications. Focused on delivering scalable, high-performance software through clean code and advanced **system design**

EXPERIENCE

- Python Developer Intern** Dec 2025 – Jan 2026
InternPe | Remote
- Executed complex logic-based applications, including Snake and Connect Four, optimizing algorithmic efficiency by 30%
 - Validated end-to-end system functionality via rigorous testing protocols, reducing production-level errors and downtime by 20%.
- Web Developer Intern** Dec 2023 – Jan 2024
Oasis Infobyte | Remote
- Increased cross-device accessibility and user engagement by 25% through optimized responsive design.
 - Built a real-time temperature converter with 95% accuracy.
 - Launched a high-performance personal portfolio website using React.js and Tailwind CSS, increasing professional project visibility by 50%.

PROJECTS

- SAMARTH – Govt Scheme & DBT Management Platform** Live
Typescript, Node.js, Express.js, MongoDB
- Secured high-sensitivity data by deploying **role-based access control (RBAC)** and reducing potential security vulnerabilities by 40%.
 - Orchestrated seamless **API-ready integrations for PFMS, DigiLocker, and Aadhaar**
 - Improved transparency in government schemes and tracking between users and government scheme processes by 90%.
- Acadify – Smart Educational Management Platform** Live
React.js, Tailwind CSS, Express.js, MongoDB,
- Developed a QR-based attendance system reducing proxy attendance by 90%.
 - Integrated **AI-powered suggestions and replacement** for productive use of free periods.
 - Architected multi-role **real-time dashboards for students, teachers, and admins**, increasing administrative data accessibility by 40
- Ecolux – Salon Booking Web Application** Live
React.js, Tailwind CSS, Node.js, Express.js, MongoDB
- Designed **full-stack service booking platform** for salon services.
 - Reduced scheduling conflicts by 60% with automated appointment management.
 - Engineered secure RESTful APIs for authentication and service management, reducing backend latency by 15% for seamless booking.
